Malawian Dairy Farmers Receive Major U.S. Grant

The U.S. African Development Foundation (USADF) June 15 announced a \$1 million investment grant to Malawi's dairy sector at the 11th U.S.-Sub-Saharan African Africa Trade and Economic Cooperation Forum, also known as the AGOA Forum.

The \$1 million investment, spread across seven dairy-sector projects in Malawi, will work to improve production and develop domestic and export markets and a nutritional food supply in several marginalized communities.

The dairy sector is a "Feed the Future" priority in Malawi because it has high potential as a growth-oriented value product. The project will help expand animal feed and milk production with local farmers.
